10. Noun

The Beast Within the Bed

Two Noun - Plural discover there's a Noun under the bed leading to the Adjective - Ends in
EST place. A place full of old Noun , and one Adjective visitor. No one knows where
 Pronoun came from... well someone does and Pronoun was planning to use him to get rid of her
 person . But now she jokes on her, because the Noun doesn't want to hurt anyone, but it does
want his Noun !
