Best Or Worst Class?

school subject. The exaggeration - best strangest etc school subject ever! I really dont OR somewhat love like OR hate that class! But I verb there are some good OR bad things about it... First of all, my relation, name of person you know, is in my class! That's always adjective, because we get to be partners for all OR none of our school projects! Our most recent project was on Noun - plural! That was the most adjective subject we had ever Verb - ends with EN - forgotten etc! Our teacher, Mr. last name, gave us a(n) letter + on that project... same letter + equals number %, in case you wanted to verb. That was the best or worst grade I had gotten, so far! It's adjective to be adjective, I guess. ? Another bonus from my same school subject class is that my crush, name of guy, Verb - Present ends in S right next to me! Sure, it makes me a bit adjective because I adverb can OR cant look into his body part - plural, when he Verb - Present ends in S to me, but at least he's placement - here there close far away etc. Just the other day evening night OR afternoon, he told me: " exclamation! I really Verb ending in ED your project on Noun - plural! It was so adjective!" I Verb ending in ED. I Verb ending in ED him and smiled. <3

After all, maybe the class is or isnt as adjective as I Verb - Past Tense !
