Drunk husband

My pet name for partner begged for a Noun out in town with his best friend First Name of a
Person. I gave him permission as long as he has no more than Number standard drinks and comes
home Adjective and before Year. He agreed and I was more than Adjective to stay
home with our Animal and watch my favourite soap opera Adjective Noun that night.
That night I made a bowl of my favourite food and a glass of liquid and settled in on my
comfortable Noun. It was getting to the time that pet name for partner said he was going to arrive. I
looked out the Noun and there was still no sign of him or a Noun. I was getting quiet
Adjective and Adjective by this point and Verb - Past Tense to call him.
I ended up going to Noun tired at about Year, i laid there cuddle my Noun to help me
fall asleep. I had dreams about Noun and Noun before it was Year.
I found my pet name for partner past out by the front Noun laying in his own liquid that he
managed to throw up. I shoved a Noun under his Part of Body and a glass of liquid by
his side and wen't back in closed the Noun behind me.
