The man that ate a fish

one day i was walking along a path and i saw a fish on the side of the road, wow what a Adjective fish, i shouted. i picked up the fish, Verb - Past Tense it on my Part of Body and took a bite, it was Adjective. After this i walked home and the fish followed me. a short while into the walk a Adjective Adjective man jumped out of a Noun and shouted scary phrase it scared me a little but it scared my fish even more. it jumped into the road and was run over by a bus, there was fish organ all over the road. Immediately the third adjective fouth adjective man jumped out into the road and ate all of the fish, it was so emotion watching him devour my only friend. slowly, the more fish the man ate odd things started happening to him, he grew Adjective eyes and started Verb - Present ends in ING around, the only two people that have ever talked too me are now both fish, this made me very emotion so i went over and bit the fish version of the third adjective fouth adjective man, i am now a fish. writing this suicide note with my fin, goodbye cruel world
