12. Verb - Present Ends In Ing

Daffodils

I wandered lonely as a Noun

That floats on high o'er Noun - Plural and Noun - Plural,

When all at once I saw a Noun,

A host, of Adverb Noun - Plural;

Beside the lake, beneath the Noun,

Verb - Present ends in ING and Verb - Present ends in ING in the breeze.

Continuous as the Noun - Plural that shine

And twinkle on the milky way,

They stretched in never-ending line

Along the margin of a bay:

Ten Number saw I at a glance,

Verb - Present ends in ING their heads in sprightly dance.
