Crazy Cloning!

On a dark and _____ night, Dr. _____ was doing an experiment. He started cloning _____! However, there were a few problems with his experiment. The cloned _____ kept coming out with strange differences. Some changed different colors, like _____. Some of them had _____ heads, some had seven _____, and others even looked had giant _____ on their heads. Dr. Frazzleman decided that instead, he would say that the failed clones were _____ new creatures. He then won the _____ Prize and _____ dollars.
