Narrative as You Go

Steve is a 28 year old bachelor who loves the Noun - Plural. Every weekend he is Adverb out doing something with his friends whether its Noun, Noun, or Verb - Present Tense. just recently he met a woman named Proper Noun who shares the same love for the of the Noun - Plural.

Steve is very interested in taking the relationship further however after several doctor visits due to fatigue, vision problems, walking difficulties, etc. he was diagnosed with Multiple Sclerosis (MS). Steve knows that this disease will eventually, although it has already started to, effect his Noun for the Noun - Plural.

He is also aware that it could Verb his relationship with Proper Noun because of their shared passion. On another note, Steve is aware of the Noun - Plural of Adjective Proper Noun because his friend Tyler was diagnosed with Type 2 Diabetes and used Narrative Medicine as a Noun Noun. Steve plans to continue his Noun in any way he can by using Adjective Noun to help others find the Noun to continue their Noun - Plural even after diagnoses.
