Growing a Plant

One time I got a plant seed. I planted it in the ground. I watered it every day and gave it lots of Noun -
Plural. But the Size seed didn't grow! I was getting really Adjective so I asked a
Job about it they said "Talking!" I didn't understand so I Verb - Past Tense. They tried
telling me again "Talking!" but I just didn't get it and was by now really Adjective. So I
Verb - Past Tense. I then checked on my plant the next day and saw a Size tree with
NOUN growing on it! I climbed up it and ate one do the same noun as NOUN. It was SO good. So I ate
Number more. But my Body Part started to hurt. I went to the Job and they said to me "
Talking." and gave me some Noun - Plural. Then my Same Body Part as before didn't hurt . So
that was Adjective. Then I went home and ate another Number do the same noun as NOUN. I
would never had guessed my tree would be so Adjective!
