Adjective

Flying Sausages!

Meal of Day Eg Breakfast Dinner etc is Verb - Present ends in ING. I just want to eat it, and get this Noun over and Adjective with.

It's my Adjective Noun of the Place Noun, and I can't believe I have Same Place tomorrow. After my Adjective Number Noun - Plural of no Same Place!

I sit in my Room in House, on my Noun. I have Verb - Present ends in ING to do. I'm so Feeling. I want the Noun to Verb - Base Form. But then I'll want Same Place to Verb - Base Form again once I go back. I was really Verb - Present ends in ING those Same Number Noun - Plural!

Anyway, I better stop Verb - Present ends in ING about tomorrow and get a Verb - Base Form on. I wonder what's for Same Meal!

Same Female Relative, what's for Same Meal? I shout to Female Relative, who is in the Room in House. I hear 'Come and Verb - Base Form! It's Adjective.' back from her. Feeling, I Verb - Base Form down to the Same Room in House to see what's for Same Meal. I have a look at my Noun. Sausages, Noun - Plural, mashed Food. Sounds Adjective! I carry my Noun to the Noun, while Same Female Relative calls Male Relative for Same Meal. We all Verb - Base Form down together.

Same Female Relative and Same Male Relative Adverb start talking about Noun - Plural, while all I can do is eat my Same Meal. I scoop up some Same Plural Noun From Before - The one before Food with my Noun, and dump them into my Same Adjective Same Food. I put the Adjective Noun in my Part of Body.

While I'm eating that, I might as well get my next Quantity ready. I stab my sausage, but it Noun - Plural. Feeling, I stab it again. It Noun - Plural. I'm getting Feeling now! I stab it Adverb, and it flies up in the air! It's just Verb - Present ends in ING there. I stare up at it in complete Feeling Present Tense Eg Confusion Excitement etc, while Same Female Relative and Same Male Relative are too busy talking about the Noun we need for our Adjective Adjective Noun. The sausage starts to Verb - Base Form around, still in the air, when suddenly my Adjective sausage flies up with it! I'm wondering what the Curse Word Eg Hell etc is going on. By now, my Relative Plural have changed their conversation and they are now talking about Noun - Plural

for me. Same Female Relative comes up with some good Noun - Plural, and she asks me 'That would be Adjective, wouldn't it, Name of a Person?' But I don't Verb - Base Form. I wait for her to notice where I'm Verb - Present ends in ING, and so she does. Exclamation...' she says, her Noun Verb - Present ends in ING. My Adjective sausage flies past my Part of Body, up into the air with the Noun - Plural. I Verb - Base Form and Verb - Base Form at them.

Then, as a Quantity, they begin to Verb - Base Form around the air. They find my Noun, and they Verb - Base Form themselves there. Then they Verb - Base Form back onto my Noun.

They just weren't Adjective enough, that's all!
