End of Year

My Summer at AALEAD

Today was another Positive adjective day at AALEAD! I can't believe that it will be ending soon. We did a lot of Positive adjective things this summer!

I remember when we went to AALEAD Field Trip. We were on the bus for Number hours, and when we finally got there, the weather was so Adjective! The AALEAD Field Trip was really fun, and we all learned a lot about AALEAD Principle by following directions and staying together!

The classes were fun, too! I remember that one day, in AALEAD Teacher class, we got to eat a whole Food to learn about different cultures. We had a science lesson about building alien Part of Body.

It was really Adjective, but I learned a lot.

Snack and recess were also great. I played Sport on the playground every day. My favorite snack was when we all ate Food.

My favorite memory from AALEAD was when our class did Favorite class memory.

I can't wait for next summer!
