Birthday wishes

Happy Birthday to an Adjective friend. I hope it's nothing like my Number birthday. I was Number years old, and my mum threw me a Favourite TV Show themed party. Number kids showed up! Mom set out heaps of treats : lollies, chocolate Plural Thing, and OF COURSE, Food ice-cream. One of my presents was a used Thing, which was quite embarrassing! We watched Favourite Movie Number times, and when my parents went to bed, we played spin the bottle. When it was my turn, it landed on a kid with Adjective braces, and when we Verb - Past Tense, my Body Part got stuck in his Body Part. **WORST BIRTHDAY EVER!** But I doubt you have to worry about that happening. But I doubt you have to worry about THAT happening. Before I came over, I secretly wished Wish, and left in our Thing. I didn't know what to get, and then I had the Adjective - Ends in EST idea of getting a Proper Noun !
