Her First Time

There was once a Noun. They wanted to be Adjective, and for the most part they were Adjective. One very Adjective and Adjective Noun he invited First name (his girlfriend) over to his house. Repeat Last First name didn't know why he had Verb - Past Participle her over to his house.

When they got there he wanted to Coordinating conjunction and make-out. But it lead into something more than that. It lead to First Name first time, they were both of Noun, but she didn't Verb - Non 3rd Person Singular Present what they were Verb - Present Tense because she for the most part didn't engage in any Adjective Noun.

He spread her Adverb Adverb Coordinating conjunction and stuck his Body Part into her Body Part. She knew that this wasn't going to feel Adjective and she let him do Pronoun anyway.

She went Preposition or subordinating conjunction that Noun feeling Preposition or subordinating conjunction of Preposition or subordinating conjunction because it was her Noun time doing anything Preposition or subordinating conjunction with anyone. She said Pronoun more than Adjective wont be her Adjective.
