# my birthday

it my birthday today, i cant wait for the day to get Proper Noun

i woke up before number:number...that is how Adverb i am, when i woke up i first went

to my family member room and she showed me everything she bought me for my birthday today

she got me: a item, item, pack of item, item, item and of course a

birthday item

i loved everything she got me, it showed how Proper Noun - Plural she truly loved me but i had to go to

subject that day which ruined all of my fun i Adjective for my birthday

after subject i arrived home and saw a big animal on the table for me because that was time i

was actually born, number:number!

overall i had a Adjective day, if only it didn't have to end
