We are cascade my friend

I've paid my Noun - Plural

Time after time

I've done my Verb - Present ends in ING

But Verb - Past Tense no crime

And Adjective mistakes

I've made a Number

I've had my share of sand kicked in my Part of Body

But I've come through

(And I need to go on and on, and on, and on)

We are the school program, my friends

And we'll keep on Verb - Present ends in ING 'til the end

We are the school program

We are the school program

No time for different school program

'Cause we are the school program of the world
