# test

As the RN \_\_\_\_\_, it is \_\_\_\_\_ responsibility to insure the safety of patients, staff and physicians. The investigation \_\_\_\_\_ that there were not any system or training problems that caused the performance issues identified. Larry \_\_\_\_\_ to report these concerns. Pursuant to Policy 1.27 Occurrence/Patient Safety \_\_\_\_\_, staff are required to report any happening or situation not consistent with the routine operation of the hospital/facility or the routine care of a patient or visitor, including situations considered to be "near misses" or that do not result in injury. Larry's failure to report concerns jeopardizes patient safety and the reputation of the organization. As a result of this \_\_\_\_\_ risk behavior, Larry is being terminated effective immediately
