Cheyenne by Jason Derulo

I'm a little unsure how it got so Adjective

If I let go I know I'll regret it

Every Part of Body that I held before, I was sure to break it

I don't know what you did but

I just can't stop

Thinking about you everyday

No I can't stop now

Look what we started Nickname

You're not what I expected 'cause

All I ever wanted was some fun

Look what we started Nickname

I used to look for exits 'cause

All I ever wanted was some fun

I never meant to fall in love

I never meant to fall in love

I

never meant to fall in love

I never meant to fall in love

First Name of a Person

Got the table set for Number guess you couldn't make it

Thought I kissed your Part of Body again, I was Noun

Still believe that night we shared was something sacred

I'm tryna clear my Part of Body but
