# The Blank Fish

'The \_\_\_\_\_ fish,' said The Hitchhiker's Guide to the \_\_\_\_\_ quietly, 'is small, yellow, and leech-like, and probably the oddest thing in the Universe. It feeds on brainwave energy received not from its own carrier but from those around it. It absorbs all \_\_\_\_\_ from this brainwave energy to nourish itself with. It then excretes into the mind of its carrier a \_\_\_\_\_ formed by combining the conscious thought \_\_\_\_\_ with nerve signals picked up from the speech centres of the brain which has supplied them. The practical upshot of all this is that if you stick a \_\_\_\_\_ fish in your ear you can instantly understand anything said to you in any form of language. The speech \_\_\_\_\_ you actually hear decode the brainwave matrix which has been fed into your mind by your Babel fish.
