thomas

1. Noun _____

thomas

_____Noun_____ the Adjective engine is a Adjective Adjective engine. As the fat controller or Sir Topham hat might say : Thomas has the tendency to cause confusion and delay. One time in particular , he was going to get into trouble for something that he did, but because he didn't feel like get into trouble, when asked who did it, he said : "Noun, it was Noun." Now Noun wasn't even a Adjective engine. But all over the Island of Sodor, the rumors of jeffrey Verb Base Form like Adjective! Everyone wanted to meet Noun. So finally the fat controller decided to go see what all of this Noun business was about. He knew that Thomas was Verb Present ends in ING , but played along anyway. Thomas came out, and Sir topam hat told him about breaking his wives teapot, and thomas finally admitted the truth.
