## Computa!

I love playing on my computer, probably you do too. But if you really love your computer, you
should know what your computer is made out of. It is made out of metal and Steel and thing
for the cover. For the designs, apple sign, and stuff, it will be made out of,, or, or
The mouse is made out of plastic. Inside, the battery is percent max and goes
for seconds. The speaker will be meters wide and A Number meters
long. They make your computer Light. Now that is what your computer is made out of. Oh, and just to let you
know, your computer costs A Big Number Yen.
