Viega History

In 1899, founded Viega, laying the foundation for our success story. It all began
with taps, Viega's first product, sold to local and around
Noun, Germany. As the company grew, the number of products increased. Drains and overflow fittings
came first, and when the first factories were opened, manufacturing expanded to include
connections and products for facilities. But we've never been satisfied with the
status quo. We wanted to improve the industry, so we improved Noun Noun Noun Noun ,
and followed that with invention of the Noun Noun feature. The innovations keep coming.
