# Thana and Woosha

One day, Thana and Woosha were left with a Adjective pet-sitter. She was wearing a Adjective hat and had a tattoo of a Animal on her Part of Body. After their owners left she pulled out a color treat for each of them, shaped like a shape. As they Verb Past Tense, they suddenly felt funny. Their Part of Body twitched. Their eyes Verb Past Tense. But mostly their paws itched. Suddenly, they looked down and saw hands instead of paws. They had turned into Adjective humans! They had fun for a while, Verb Present ends in ING, Verb Present ends in ING, and hugging. But then they started to miss having Adjective fur. They did not like wearing clothing. They liked playing game with their owners, and sleeping a lot whenever they wanted. They begged the Adjective pet-sitter to change them back. With a swish of her magical Noun, they were changed back to normal, and they both ran outside to celebrate by Verb Present ends in ING and yowling at the moon.
