7. Noun

Luau

Let me tell you the story of the time we went to a Luau. Once upon a time we were in Hawaii. It was the last night of our vacation so we wanted go to an Adjective Luau. We were expecting limbo, music, coconuts, and more! But what we got... was much MUCH different. We plugged the location of the Luau into our GPS and started driving. We drove and drove and finally arrived. We were at the base of a volcano. All around us were lit Noun torches and string lights that looked like Noun. The music was blasting, it was a mix of Song or Singer and Song or Singer. The people greeted us and gave us lei's made out of Noun. Then, we were given skirts made out of Noun and a special bracelet.
