# A Little About Me

My name is           Proper Noun          . I was born in           Proper Noun          . I have one           Noun           and one           Noun          . My favorite activity is           present participle -ing          . I love to eat           Noun Plural          . It is the           superlative           thing I have ever           past participle verb          .

I want to be a           Noun           after I           Verb Base Form          . I think that will be           Adjective           because I can learn about           Noun Plural           and make a lot of           Noun          . What about you? Can you tell me about you?
