# open banking

In Open Banking, we want to enable creation of \_\_\_\_\_ Adjective user experiences and services for our \_\_\_\_\_ Noun Plural. So, what do we mean by that?

Well, open Banking is a \_\_\_\_\_ Noun and \_\_\_\_\_ Noun for \_\_\_\_\_ Verb Present ends in ING banking in the future that will enable DNB to

- \_\_\_\_\_ Verb Base Form our customers beyond our own channels; with our products and \_\_\_\_\_ Noun Plural
- It makes us able to partner across \_\_\_\_\_ Noun Plural and segments to let our \_\_\_\_\_ Noun Plural, products and services be a seamless part of others' value chains and business models
- Get new \_\_\_\_\_ Noun about our customers by making services so we can understand the context of which our customers use our services in, and by consuming external \_\_\_\_\_ Noun Plural
- Leverage the \_\_\_\_\_ Adjective power in the market by \_\_\_\_\_ Verb Present ends in ING others to build on top of our products services and customers
- And, deliver on the corporate responsibility by \_\_\_\_\_ Adverb contributing to the digitalization of \_\_\_\_\_ Location

This will create value both for \_\_\_\_\_ Proper Noun and our customers! The most \_\_\_\_\_ Adjective one is of course direct revenues, where we charge per use of our \_\_\_\_\_ Noun Plural. However, we believe the most value will be coming from other areas such as the distribution of \_\_\_\_\_ Noun Plural from the other areas in the bank, cost

cutting, greater customer happiness and recognition, in addition to gaining more insight about our customers so that we can be more \_\_\_\_\_ *Adjective* \_\_\_\_\_ and \_\_\_\_\_ *Adjective* \_\_\_\_\_ in other channels

Right now, we are finishing up the baseline for what is needed in order to expose DNBs \_\_\_\_\_ *Noun Plural* \_\_\_\_\_, in addition to the first new \_\_\_\_\_ *Adjective* \_\_\_\_\_ products, such as the \_\_\_\_\_ *Noun Plural* \_\_\_\_\_ API, Aggregation of PSD2 data for MinBank, BMPuls and Spare, APIs for the \_\_\_\_\_ *Adjective* \_\_\_\_\_ sector as well as the responsibility for the well known PSD2 products/APIs.

Going forward, we will continue to develop \_\_\_\_\_ *Adjective* \_\_\_\_\_ \_\_\_\_\_ *Adjective* \_\_\_\_\_ API products \*together\* with the other areas in the bank and our \_\_\_\_\_ *Noun* \_\_\_\_\_.
