Dr. Breen Speeches From Half Life 2 Part 2

It has come to my attention that some have lately called me a _____ Noun _____, as if such a term were shameful. I ask you, what greater endeavor exists than that of _____ Concept _____? In our current unparalleled enterprise, refusal to _____ Verb Base Form _____ is simply a refusal to grow--an insistence on suicide, if you will.

Did the _____ animal _____ refuse to breathe air? It did not. It _____ Verb Past Tense Modifying Noun _____ forth boldly while its brethren remained in the _____ Adjective Ends in EST _____ Noun _____ abyss, with _____ Adjective _____ Body _____ Part Plural _____ forever _____ Verb Ending in ING modifying the word at _____ at the dark, _____ Adjective _____ and _____ Adjective _____ despite their eternal vigilance. Would we model ourselves on the _____ Animal _____? Are all the accomplishments of humanity fated to be nothing more than a layer of _____ Adjective _____ plastic _____ Noun Plural _____ thinly strewn across a _____ Adjective _____ Noun _____, sandwiched between the _____ Cool Word _____ Type of Rock _____ and an eon's worth of _____ Noun _____?

In order to be true to our nature, and our destiny, we must aspire to greater things. We have outgrown our _____ Noun _____. It is futile to cry for mother's _____ Noun _____, when our true sustenance awaits us among the _____ Noun Plural _____. And only the universal union that _____ Adjective _____ minds call 'The _____ Cool Word _____ can carry us there.

Therefore I say, yes, I am a _____ Noun _____. We must all _____ Verb Base Form _____, willingly, eagerly, if we expect to reap

the benefits of unification. And Verb Base Form we shall.

I'd like to take a moment to address you directly, Dr. Last Name.

Yes. I'm talking to you, the so-called Number Cool First Name Cool Last Name. I have a

question for you. How could you have thrown it all away? It staggers the Body Part. A man of

School Subject, with the ability to sway Adjective and fearful minds toward the Noun,

choosing instead to embark on a path of Concept and Concept. Make no mistake, Dr.

Last Name. This is not a scientific revolution you have sparked...this is Noun and Noun

.

You have Verb Past Tense Modifying Noun humanity into freefall. Even if you offered your Noun now,

I cannot guarantee that Our Cool Name for a Group would accept it. At the moment, I fear they have begun to

look upon even Noun with suspicion. So much for serving as humanity's Job Title.

Help me win back their trust, Dr. Last Name. Surrender while you still can. Help ensure that humanity's

trust in you is not misguided.

Do what is right, Dr. Last Name. Serve mankind.

So, this is Dr. _____
Last Name... at last. I wish I could say this was a pleasant surprise, but it's neither a surprise nor, as you will surely agree, very pleasant. Well, I'm nothing if not pragmatic.

Well, Dr. _____
Last Name, under other _____
Concept Plural I like to think we might have been able to work together in an atmosphere of mutual _____
concept and respect. Certainly judging from your brief tenure at _____
Color _____
Type of Geography, while I was its administrator, you showed every promise of becoming a _____
Adjective and _____
Adjective _____
Noun to the scientific process. And yet, I'm not sure what spurred you to it, but there is really no place in this enterprise for a rogue _____
job title.

Your _____
Noun Plural are partly to blame, of course; my disappointment in _____
First Name _____
Last Name and _____
Name and _____
First Name Kleiner is far greater than my sorrow over your unfortunate choice of career path. In a way I suppose you could not have done otherwise. Who knows what seeds of _____
Concept they planted when you were _____
Adjective and gullible? But while they certainly share a great part of the responsibility, for the recent troubles, it is you alone who have chosen to act with such willful disregard for humanity's _____
Noun.

Tell me, Dr. _____
Last Name, if you can: you have destroyed so much -- what is it exactly that you have created? Can you name even one thing?... I thought not.

have laid the foundation for humanity's survival, and not as we have narrowly defined ourselves but as something greater than we could ever imagine, something that we can now only begin to glimpse.

Look, First Name, look at what you are throwing away. Is it worth it?

Careful, First Name! These Noun Plural are quite Adjective!

Exclamation... Is this on? Yes? Very well, I... I am not much of a public noun ending in er, but I'll... I'll do my best.

Exclamation... Fellow citizens... Residents of Cool Name 17 and Cool Name... by which I mean sentient residents, of course, human and otherwise, although I believe there is little need to explain recent developments to our Cool Name For New Species allies...

At any rate... First, as a matter of great urgency, if you find yourself still within the confines of Location 17, you are well advised to leave the type of location at once by the fastest means available to you. We have service to much of the commuter Noun system in order to carry citizens out of the city as Adverb as possible. We have also established Noun Plural and Adjective areas in the surrounding location plural.

I repeat, you must evacuate the location at once.

While there was certainly a great benefit in destroying the Capitalized Noun Possessive teleport core, we have detected one rather unfortunate side effect.

It would appear an inevitability that very soon now, the Capitalized Noun will be Verb Past Tense

Modifying Noun in a destructive event whose magnitude I cannot currently estimate with any certainty, except to

say that it will almost certainly Verb Base Form modifying a Noun an area of many miles' radius.

Therefore, I repeat, evacuate City Name 17 at once if not sooner! I cannot state this without enough undue Noun!

On a lighter note, if you are already in one of our designated Noun zones, I feel obliged to point out that

a more fortunate side-effect of the noun possessive destruction is the complete removal of the

Cool Group Name Possessive Noun suppression field.

Previously, certain protein chains important to the process of Noun development were selectively

prevented from forming. This is no longer the case. For those so inclined, now would be an excellent time for

Verb Base Form. Which is to say, in layman's terms, you should give serious consideration to doing your

part

for the revival of the Noun Plural. We must make the most of the time we have, as it is by no means certain how much time we have secured ourselves before the Cool Name attempt to restore their Noun, as they certainly shall.

Since this is in fact the first opportunity we have had to speak openly of the Adjective influence of the Cool Name, there is much ground to cover--and in fact I hope to institute a series of Adjective Noun Plural in the days ahead. However, for now, we will have to content ourselves with some relatively meager Noun.

The destabilization of the Cool Name 17 Noun has had repercussions that were not entirely unexpected, although we hardly dared speak this hope ahead of time. The Adjective pulse forced a Noun on the entire network of linked Citadel reactors. Thus, for the time being, I believe the word that all Cool Name Noun Plural have failed completely, as well as all type of technology systems based on that technology.

In short, the Combine are completely cut off. Cool Group Name forces currently stationed on Planet are now isolated units. Stranded.

However, this is most likely a temporary state of affairs. As we once learned to our dismay, even the relatively tiny

_____ Noun at _____ Color _____ Type of Geography like Mountain gave our enemies an _____ Noun which they were able to force ever wider, as they _____ verb past tense modifying the word through through in greater and greater numbers.

In addition to the completely _____ Adjective species, there are many _____ Adjective post-human _____ Noun Plural still remaining on _____ Planet who will be doing their utmost to re-establish lines of communication and _____ Noun with the larger forces.

Even so, there is greater reason for hope now than at any time in the past _____ Time period.

We have made, in secret, several _____ Adjective advances which we will do our best to deploy in advance of the _____ Cool Group Name Possessive return.

We continue to diligently assemble and _____ Verb Modifying a Noun a new generation of _____ Job Title Plural and _____ Job Title Plural.

For what the _____ Cool Name fear the most is not any tangible human _____ Noun, but our _____ Noun, our intellect, our ability to respond _____ Adverb and rationally to every _____ Noun they turn against us.

We

place our firmest hope in the human concept, even knowing how easily it may be shattered. We have all
seen friends and family crushed by the Cool Name. Some of our neighbors have allowed themselves to be
Verb Past Tense Following Word allowed themselves to be, and purged of their Concept, by the Adjective
Noun.

And those who resisted have met a most terrible Noun.

Still, I cannot overstate how important it is that we retain our Noun. Only this will allow us to hold
together as we must for their inevitable return...and what is certain to be unimaginable Concept.
