Mentality Creepypasta

They perfected a chip, that when implanted in your brain, would allow you to read the thoughts of _____Noun Plural_____. At first, everyone was excited, and they all clamored eagerly to get the first few. As soon as they were proven reliable, anyone who could afford it bought one. At first, it seemed _____Adjective_____. Murderers and _____Noun Plural_____ were caught easily, and you could judge how a relationship could go on the first date. But we're all _____Adjective_____, we think things we don't mean during arguments and _____event_____ plural_____, and so the chip began to cause strains and rifts between _____Noun Plural_____ and _____Noun Plural_____. There was a petition to get the chips removed, which was successful.

Unfortunately, their brains had been _____verb past tense modified by a noun_____ by the chip. They couldn't stop hearing people's _____Proper Noun Plural_____. Online support groups popped up and scientists everywhere began researching ways to reverse the _____Noun_____. It turned out that some _____Noun_____ on reddit had the answer. Circular reasoning maybe, but his solution worked. If you think about what is doing your thinking, you stop hearing other people's _____Noun Plural_____.

I was always _____Adjective_____, I could never afford the chip. But what I have learnt is that if you spend all your time thinking about your _____Noun_____, your own isn't enough. I can hear them _____Adjective_____ and _____Verb Present ends in ING_____ outside my door right now, desperate for _____Noun_____.
