Macro Social Work

There is a _____Adjective_____ to exist within the three core social work buckets: Macro, Mezzo, and Micro systems. There is a _____Adjective_____ misconception that social work is either case work or removing children from homes. At the same time, there is a _____Adjective_____ about macro social work and the absence of working systems. Finally, the mezzo systems of social work are often left out of the conversation completely. Macro social work should be the combination and coordination of all systems at all times.
