If you're a football fan, you've probably heard more about Taylor Swift in the last two weeks than you have in
your life to date. If you're a Swiftie, you've probably heard more about,
Noun Plural, and Kansas City than you ever dreamed you would.
Arguably the twoAdjective Ends in EST Noun Plural left standing Taylor Swift and the NFL have
collided with a impact, all because Taylor has apparently begun a relationship with Kansas
City Chiefs Adjective Noun Travis Kelce.
By now, even if you're not in either fandom, you've likely at least heard about how Kelce (pronounced "
pronunciation ") attempted to Verb Base Form Swift on the Eras tour by giving her a Adjective
Noun with his phone number written on it. Next thing we knew, the two were "Adverb hanging
out."
Then Taylor showed up to a Adjective Chiefs game to Verb Base Form on Travis (who later
confirmed he'd her), and it was a whole new ball game and not just because the players
were openly by the megastar in the stands. Overnight, the NFL and Kelce himself became
thetopic of conversation among people who'd never thought about football before, while
sportscasters found themselves injecting references into their sports roundups. The media frenzy
around Kelce and Swift, along with the memes and the references to
Swifties Verb Present ends in ING sports fandom. Countless Noun Plural explaining football for Swift
fans began circulating the takesphere.

When

the Chiefs' next game against the New York Jets rolled around, the hype over Taylor/Travis (Traylor? Tayvis?
The ship nomenclature is very important!) was so that the NFL created a Adjective
promo for the game that used Swift's "Welcome to New York" as the backdrop and declared the
matchup to be "Taylor made for Sunday night." And they were right: Swift showed up to the game with a whole
crew of celebrity friends including and Hugh Jackman (has Hugh Jackman ever even been to a
football game before?!), all of whom with Kelce's mom in the VIP box, cheering on the
Chiefs while every eye was trained on Taylor.
The October 1 Chiefs/Jets game, as an NBC press release crowed, was not only
TV, but the adjective Ends in EST game of the year since the Super Bowl. As Vox's Emily
Stewart put it, "The is Adjective, whether you're a Taylor Swift fan, an NFL fan, both, or
neither. Kelce's sales have spiked, as has the number of his noun Plural The social
media chatter is The media coverage is Seemingly has
Verb Past Tense ."
Of course, all of this hyperventilating would still have happened if Taylor Swift had any
other football player. But it was Travis Kelce who, from all accounts, Adverb
Swift. That's a change from the Swiftian narrative, which if we're to believe
her song lyrics usually puts her in the position of "saw you across a crowded room and knew I had to
you." In this case, the "crowded room" was Swift's Eras tour, and Kelce was the one
making the moves.

It's true that the NFL is having a field day with this, and that Swifties their their
football stadiums outside of concert time is must-see fall TV. Kelce's right;Proper
Noun probably is " verb Present ends in ING it" just a bit. And while that might not verb Base Form
on Kelce, as long as he keeps running 1,000-yard seasons, it could very easily on Swift, as
it has other pop stars who've verb Past Tense athletes only to then be blamed for those
athletes'
by the media as a media figure. Everyone finally figured out that she's a
in ING ?
So, yes, Taylor seems to be risking a lot to Kelce right now. But it's also true that
sometimes a girl and a guy can have their eye on each other for years until the time is right to go on a date or two
and see what Verb Present ends in S
And if that experiment leads Kelce to more noun Plural and the NFL to Adjective
Noun Plural, well, who's going to stand in the way of true love?
