Time Travel

I entered a time machine that I found?in _____ Location _____ at a _____ Adjective _____ science fair.?There was a key pad where I typed in?the year 1946. Before I knew it, I was?in a _____ Adjective _____ vortex. Then in a flash of?light, I appeared in the medieval era.?I couldn't believe it! There were these fatal? castles occupied by turnips that I tried to explore.?I was exploring the beautiful artefacts when I was unexpectedly?attacked by a pack of vicious arrows. I tried fighting back with the supplied I had in my backpack. Unfortunately, that didn't work, so I started running until I reached the fantastic time machine. I pushed the flashing button that said 'BACK TO THE FUTURE,' and with a thunderous boom, I felt myself life off the floor. When I landed, I opened the door to peek outside and see, not one, but thousands of Martians. Oh no, this isn't the year 2024! It must be at least 2080.
