Sex

•

While its primary purpose is the reproduction and continued survival of the <u>Noun</u> species, sex is often performed <u>Adverb</u> for pleasure or as an expression of love and emotional intimacy. Sexual intercourse typically plays a powerful bonding role; in many societies it is normal for <u>Plural noun</u> to have frequent intercourse while using birth control, sharing pleasure and strengthening their <u>Adjective</u> <u>Plural</u>

Oral sex consists of all the sexual activities that involve the use of the mouth, tongue, and possibly

<u>Noun</u> to <u>Verb</u> genitalia. It is sometimes performed to the exclusion of all other forms of sexual activity.
