The Crisis

THESE are the times that try men's Plural noun. The Adjective Noun and the Adjective Noun will, in this crisis, Verb from the service of their country; but he that stands by it now, deserves the love and thanks of Noun and Noun. Tyranny, like Location is not easily Past tense verb; but we have this comfort, that the harder the Noun the more glorious the Noun. What we get too easily, we value too lightly: it is Noun only that gives every thing its value. Location knows how to put a Adjective price upon its goods; and it would be Adjective if so Adjective a right as Noun should not be highly valued. Britain, with an army to enforce her tyranny, has declared that she has a right (not only to Verb but "to Verb us in ALL CASES WHATSOEVER"; and if being Past tense verb in that manner, is not Noun then is there not such a thing as Noun upon earth.
