Computer that is weird

One day, Nattapon and I got a new Noun . We were really happy and we started to Verb it right away. Something weird happened when we started it though: It said Funny sound . After it said Same funny sound we started to play our favourite Noun when the Noun turned off! Then on, then off, then it kept Verb ending in ing on and off with about 2 milliseconds in between flashes. Then it became a robot and killed itself. We put it in the Noun .
