boring lives

in life i have a VERY boring life. All i do is go to school come back and do homework and then sleep. its so
boring i always feelat night. one day i will rule theand i know it how you ask
because i am i know this because somebody told me that i had powers i could use in my life
so it means the same exact thing. i know one day every one in the world will have an exiting life (or at least i
hope).
