Professor Boerma's End of the Year Speech

Ladies and Gentlemen, it's been a Adjective year. I am always so Emotion to see how much Type of sacrifice you guys put in, starting from band Long period of time. I will probably never forget seeing you Verb at the Obscure university game when it was Large number degrees outside.

And who could forget the first Time of day game, when the light Article of clothing (plural) for the Mmb section didn't work and we won with Small amount of time left! But of course, many of the things we will remember had nothing to do with Sport. I will always Verb when I think of the Mmb section dressing up as Video game characters each week, or the Mmb section doing pregame without wearing Article of clothing (plural). And don't forget the shows! Don't you recall playing Song played in a show while forming Plural noun or doing the Dance move? Anyways, I think we can all look forward to a Adjective end to the year: we are going to new orleans to play the Silly college mascot while that school down south is going to the Something disgusting bowl in Very cold city. Go Blue!
