Finals Week

Finals week is the most stressful time of the whole semester. You study all day and all night, _____
coffee and Red Bull, don't sleep. And even though you know you have to study, you have no motivation to do it
because you're so excited for winter/summer _____. You can go home, relax, maybe go on vacation.
And you'll have no classes to _____ about! You spend _____ hours in the 24-hour-room or
third _____ of the library, only taking study breaks so you can go take your exam. They don't always
take too long, but it feels like _____ hours sometimes. But even though finals are _____ it's
all worth it in the end when you see your good _____ on e-Campus, and all that studying paid off.
