# Christmas Card

Merry Christmas           Your name           it has been forever since I spoke to you and           Your spouse/significant other          .

How are your           List dependents          . I was just thinking about the time           Your favorite memory of me           it was the

best           Measure of time           of my life. I sent you a Christmas present to           Your address (line 1)           line 1,

          Your address (line 2)           line 2, unfortunately it was mailed to           Your address (line 1)           Honolulu, HI. So

instead I donated 200.00 to the Human fund in your name. Have a Happy New year.
