The Kitty

The kitty was Adjective and Adjective. He smelt so Adjective and he always
Past tense verb on the floor. I hate the kitty. If i had a chance i would Verb him. Not really, But he
is prety Adjective. And he is always Adjective. I remember this one time where he Verb
off the Noun. He fell down and hurt himself so bad. And he never Verb in the Noun
Noun. But i love the Noun either way.
