# Fairy Tale

Once upon a           Noun           there lived a           Adjective           girl named           Femalename1          .           Femalename1            
lived in a/an           Adjective                     Noun           with her           Adjective           stepmother           Femalename2           and two  
stepsisters           Femalename3           and           Femalename4          .           Femalename1           was clearly the           Adjective            
ending in iest of the girls and that made her stepmother           Adjective          .

One day,           Femalename1           was out in the orchard picking           Plural noun          . As she hummed song, a  
          Adjective           prince that was riding his           Noun           nearby heard the           Adjective           maiden's song.

'My lady,' he           Past tense verb          . 'You have the most           Adjective           voice I have ever heard.           Verb            
me.'

'Of course!'           Femalename1           replied. 'But we will have to           Verb           away. My stepmother cannot know of  
this.           Verb           me tonight at midnight so that we may live           Adverb           ever after.'

The prince \_\_\_\_\_ hand and the two \_\_\_\_\_ ways.

To be continued...
