# Childbirth

Childbirth is the culmination of a human pregnancy or gestation period with the delivery of a newborn

\_\_\_\_\_ Animal \_\_\_\_\_ from the mother's \_\_\_\_\_ Part of body \_\_\_\_\_. The process of human childbirth is categorized in 3 stages of labor. In the first stage, the \_\_\_\_\_ part of body \_\_\_\_\_ begins rhythmic contractions which steadily increase in strength and frequency, gradually widening and thinning the \_\_\_\_\_ Different part of body \_\_\_\_\_. During the second stage, the \_\_\_\_\_ animal \_\_\_\_\_ passes from the \_\_\_\_\_ part of body \_\_\_\_\_ through the \_\_\_\_\_ different part of body \_\_\_\_\_ and birth canal. In the third stage, the placenta pulls from the \_\_\_\_\_ part of body \_\_\_\_\_ and is expelled through the birth canal.

In most cultures, childbirth is considered to be the beginning of a person's life, and their age is defined relative to it. Some families view the \_\_\_\_\_ Noun \_\_\_\_\_ as a special part of birth, since it has been the child's life support for so many months. Some parents like to see and touch the \_\_\_\_\_ noun \_\_\_\_\_.
