# What the Heck Did I Do Last Night?

Ugh, my           Noun          . Everything's           Verb ending in ing           like I was just           Past tense verb           into a           Noun          . How many glasses of wine did I have during that           Noun          ? Must've been at least           Number          . Urf, my stomach's           Verb ending in ing           me. Feels like I ate a           Animal          . And what the heck is on my shirt? It looks like           Noun          . That           Present tense verb           it. I'm never           Verb ending in ing           another party again. At least until           Year          .
