# There Will Be (Liquid)

I did what your           Noun           couldn't. I           Past tense verb           you and I           Past tense verb           you. It was Paul who told me about you. He's the           Noun          . He's the           Adjective           one. He knew what was there and he found me to take it out of the           Noun           and you know what the           Adjective           thing is?           Verb          .           Verb          . I paid him           Number           dollars, cash in hand, just like that. He has his own           Noun           now. A           Adjective           little business. Three           Plural noun           producing. Five thousand           Plural noun           a week.

Stop           Verb ending in ing           you sniveling           Animal          ! Stop your           Noun          . You're just the           Insulting noun           Eli. You slithered out of your mother's           Noun          . They should have put you in a glass jar on a           Noun          . Where were you when Paul was suckling at your mother's           Body part          ? Where were you? Who was           Verb ending in ing           you, poor Eli? One of Bandy's           Plural noun          ? That land has been had. Nothing you can do about it. It's gone. It's had. You           Present tense verb          .

          Noun          !           Noun           Eli, you boy.           Past tense verb           dry. I'm so sorry. Here, if you have a milkshake, and I have a milkshake, and I have a straw. There it is, that's a straw, you see? You watching? And my straw reaches across the room, and starts to drink your milkshake... I...drink...your...milkshake! I drink it up!

Did you think your song and dance and your superstition would help you, Eli? I am the Third Revelation! I am who the Lord has chosen!
