Room 18

Once upon a time, there was a very Adjective teacher named Ms. Koepnick. She had 22 Adjective second-grade students. In one of the other second-grade classes, the teacher's pet Animal had two baby Animal plural. Although one of them passed away because it was very Adjective the other one survived and became Room 18's pet Animal. The Animal was very Adjective but one day, Ms. Koepnick forgot to feed the Animal so it was very Adjective.
