## The Good Night (pt. 6)

The \_\_\_\_\_ Adjective man who I kicked stumbled in behind the women. He saw his girl and pulled her down. He started doing her while the stripper and naked girl approached. The first woman from the first stall stepped out while man and 20-year-old stood. The 20-year-old hadn't finished using the toilet and slipped on my piss landing on the man. EW. That is NOT a \_\_\_\_\_ Adjective sight. The naked girl leans and licks my \_\_\_\_\_ Body part. I stumble back into the stripper who turns me and stuffs her boobs right in my face. A fat woman comes out of a stall and freezes. An old woman yelling at me, 2 girls trying to do me at the same time, a young woman shitting on a \_\_\_\_\_ Adjective man, and a woman grabbing me from behind while she kicked the strong man in the balls again. He yowled and crashed right through a stall wall. There was a scream and a man ran out, naked with his girl slipping behind him. The fat woman runs to me and knocks over the 3 women crowded around me. She pulls me dick and I karate chop her hand, running away out of the bathroom, I lose the pants as I run because they were halfway up.
